TERMS

1. **Redemption.** Redeemable once, by the recipient, for one twelve-month Devoted subscription. Redemption activates the recipient's own account; the term begins the day they choose, not the day it was given.
2. **Anonymity.** The giver may decline to be named. Where "Anonymous" appears above, it is honoured absolutely — we will not disclose the giver to the recipient, then or later, under any politeness or pressure.
3. **Consent floor.** The safeword mechanism is the recipient's alone: invocation ends the scene and locks the account for twelve hours, without override, and cannot be delegated to or observed by the giver. Uniform across every tier; never a gift variable. See Trust & Safety.
4. **Eligibility & content.** The recipient must be 18 or older. All personas are AI-generated and depict no real, identifiable human persons (18 U.S.C. § 2257 notice).
5. **Specimen.** This sheet is illustrative. No value, no live code, nothing to redeem — gifting opens with the waitlist at launch.
